## DATA

CODE	VALUE
11049857	Not enough organized things to keep people busy.
11053863	the way things were set up.
11056110	The hotel room was less than Grand.
11063079	Weather. LoL
11062817	I would have to say the hotel and free breakfast. We paid more for a suite and the room was a wreck and the carpet very dirty. The table in the room looked like someone had been ice skating on it and was duct taped in several places. We found a blanket in a drawer that we started to use until we found a big wet spot on it. Also the 5' 6" showerheads were very inconvenient.
11064237	Raffle process takes too long. You have families there with kids trying to stay up past 10pm. Since the majority of the people weren't arriving until Thursday/Friday, not really a good call on doing the breakfast earlier on the week. Should have been planned when most people would be there.
11069822	having to go home
11070796	Leaving.
11072145	not enough time
11083026	traffic. not being able to meet everyone
11088187	I was only there two days.
11113651	Weather, traffic, not enough time in the day
11127931	The hotel - our room wasn't very nice. Minor problem though. The heat - Having Nationals during the hottest time of the year can be very hard on older people.
11146967	I Thought the hotel had alot to be desired, I wasn't able to get in my room till 2 hours after check in time and it still looked dirty.
11152797	None
11156809	raffle/silent auction seemed to carry on a bit
11188579	Awards ceremony took way too long. I think they could have done it in less time. I also did not like the fact the folks we raised money for did not even say thank you to the crowd
11191233	Not know who was doing what or going where and when.

11479160	Watching out for the constantly wet floor in the hotel.
11685969	Downtown Pigeon Forge was a bit to "Vegas" like. A lot of people ended up out and about without much coordination so it was difficult to hang out with old and new friends back at the hotel.
11687965	Long delays getting things ready to go anywhere, not letting members know when something had been canceled.....Did not like the fact that they gave a check to the childrens home and the recipients just got up and left without a thank you!! Dinner buffet was a poor example, bad, tough roast beef, cold veggies, etc.
11689333	Not getting to do the white water rafting
11715411	seems the awards were a clique thing
11718770	There wasn't that much done as a group.

DATA

CODE	VALUE
11049857	Better agenda coordination and planning
11053863	I'm not real sure about the area to pick for a Nationals GTG as pigeon forge is a vacation resort and I came down to see my friends and most of the time they were gone. Tybee Island was a nice place to be everyone hung together and that is were my first big GTG was and I got to know alot of folks there in Pigeon forge I didn't meet anyone new.
11056110	The possibility of a/more cruise(s) toward the end of the event for those members who could not be there during the first part of it.
11063079	Ease up on the begging for moeny, I felt that certain people cared more about getting money for the chairity, then about having fun and enjoying the event. I don't mind giving but, to a point. Not to mention the sheer cost of gas to get to the event. The Registration fee was absurd, I didn't want a T-Shirt and didn't get to have the breakfast so i paid for nothing on that end of it. \$35.00 would have been acceptable.
11062817	Overall I think everything was planned very well. The only problem I saw was some people planned events and then backed out of attending the Nationals leaving no one to take them over.
11062704	Don't have children and didn't stay at the hotel, so I hope I didn't mess with the survey by putting neither satisfied/unsatisfied.
11072145	need a message board to check and add too , like, tomorrow mornning we (royalstar),are meeting for breakfast to I-hop any one to join us meet here at 7:30am or call rm. 1511
11075603	need a nicer motel
11088187	It was great!
11113651	Hated to hear that this was the coordinators (John, Mike) last big GTG..
11127931	I felt the orginization was well done and really have nothing to recommend for changes. A cooler part of the year would be nice, but I understand that would create hardships for members with children. Great experience overall...Thanks.
11146967	Better consideration on the room selection.
11188579	Hugz and Trav did a super job with only a few areas that required some fine tuning.
11191233	Have a bulletin board or something where the days events and times could be posted & where members can post where/when they are going to do something incase we would like to tag along to do something we were unaware of.
11479160	I thought they did a great job at the raffle/auction, but I wish it had been sped up a wee bit.

11685969	While the schedule was well planned out, there didn't seem to be a lot of coordination while at the event itself. A lot of the activities tended to be away from the hotel and had a significant cost if going with a family which made it difficult if you went to the event on a budget.
11687965	Awards seemed like they just thanked each other to much, gave the show & shine awards to their little group.....The regerstration room was not open at the times they said it would be. I was up there four times before I found someone in the room.
11689333	I think the schedule should have been planned in a better way to be able to help out at the Children Home as far as doing some work there.
11715411	have outsiders do the judging, I mean not the ones hosting or organizing the event! Lets face it, anyone can buy a new AV and win cleanest, but what about the labor of love for the guy that has 70k on it, and its just as clean?
11718770	Stick to the posted schedule, or at least make sure everyone is notified before hand. Don't leave messages on windshields that say meet at 2:30 when it was already discussed to meet at 4:30. Other events were cancelled altogether without letting everyone know.
11828656	The event did not seem like a big deal to be a "National event." A message board is important. I did not see one. We need to know when plans are made, changed or cancelled. The breakfast and dinner were not free - they were paid for in the registration fee. The breakfast and dinner were both good, but should not be considered "free" as described above.
